

Nemzetközi folyóiratban megjelent első/utolsó szerzős közlemények:

Angelika Varga, Agnes Jenes, Timothy H. Marczylo, Joao Sousa-Valente, Jie Chen, Jonathan Austin, Srikumaran Selvarajah, Fabiana Piscitelli, Anna P. Andreou, Anthony H. Taylor Fiona Kyle, Mohammed Yaqoob, Sue Brain, John P. M. White, Laszlo Csernoch, Vincenzo Di Marzo, Laki Buluwela, Istvan Nagy: Anandamide produced by Ca²⁺-insensitive enzymes induces excitation in primary sensory neurons. *Pflugers Arch* 466, 1421-35 (2014)

Angelika Varga, Péter Bagossi, József Tőzsér, Barna Peitl, Zoltán Szilvássy: Effect of experimental hypercholesterolaemia on K⁺ channel α -subunit mRNA levels in rabbit hearts. *Eur J Pharmacol* 562, 130-131 (2007)

Angelika Varga, Kata Bölcskei, Éva Szőke, Róbert Almási, Gábor Czéh, János Szolcsányi, Gábor Pethő: Relative roles of protein kinase A and protein kinase C in modulation of transient receptor potential vanilloid type 1 receptor responsiveness in rat sensory neurons in vitro and peripheral nociceptors in vivo. *Neuroscience* 140, 645-657 (2006)

Angelika Varga, József Németh, Árpád Szabó, Jason J. McDougall, Chunfen Zhang, Krisztián Elekes, Erika Pintér, János Szolcsányi, Zsuzsanna Helyes: Effects of the novel TRPV1 receptor antagonist SB366791 in vitro and in vivo in the rat. *Neuroscience Letters* 385, 137-142 (2005)

Nemzetközi folyóiratban megjelent társszerzős közlemények:

Shilpa Mistry, Cleoper C. Paule, Angelika Varga, Andrew Photiou, Antonio Avelino, Lakjaya Buluwela, Istvan Nagy: Inflammation does not alter the expression of the TRPV1 and TRPV1b protein in cultured primary sensory neurons. *Neurosci Lett* 564, 89-93 (2014)

Joao Sousa-Valente, Angelika Varga, Kajaluxy Ananthan, Ankur Khajuria and Istvan Nagy: Anandamide in primary sensory neurons: too much of a good thing? *Eur J Neurosci* 39, 409-18 (2014)

Hegedűs C, Kovács D, Drimba L, Sári R, Varga A, Németh J, Szilvássy Z, Peitl B: Investigation of the metabolic effects of chronic clozapine treatment on CCK-1 receptor deficient Otsuka Long Evans Tokushima Fatty (OLETF) rats. *Eur J Pharmacol* 718, 188-196 (2013)

Peitl, B., Döbrönte, R., Drimba, L., Sári, R., Varga, A., Németh, J., Pázmány, T., Szilvássy, Z: Involvement of cholecystokinin in baseline and post-prandial whole body insulin sensitivity in rats. *Eur J Pharmacol* 644, 251-256 (2010)

Barna Peitl, Róbert Döbrönte, József Németh, Csaba Pankucsi, Réka Sári, Angelika Varga, Zoltán Szilvássy: Meal-induced enhancement in insulin sensitivity is not triggered by hyperinsulinaemia in rats. *Metabolism* 58, 328-32 (2009)

Róbert Almási, Eva Szőke, Kata Bölcskei, Angelika Varga, Zsuzsanna Riedl, Zoltán Sándor, János Szolcsányi, Gábor Pethő: Actions of 3-methyl-N-oleoyldopamine, 4-methyl-N-

oleoyldopamine and N-oleoylethanolamide on the rat TRPV1 receptor in vitro and in vivo. *Life Sciences* 82, 644-51 (2008)

Zoltán Sándor, Angelika Varga, Péter Horváth, Barbara Nagy, Zoltán Szilvássy, János Szolcsányi: Construction and analysis of a new stable cell line expressing the rat TRPV1 receptor. *Cellular and Molecular Biology Letters* 10, 499-514 (2005)

Balázs Jakab, Zsuzsanna Helyes, Angelika Varga, Kata Bölcskei, Árpád Szabó, Katalin Sándor, Krisztián Elekes, Rita Börzsei, Dániel Keszthelyi, Erika Pintér, Gábor Pethő, József Németh, János Szolcsányi: Pharmacological characterization of the TRPV1 receptor antagonist JYL1421 (SC0030) in vitro and in vivo in the rat. *Eur J Pharmacol.* 517, 35-44 (2005)

János Szolcsányi, Zoltán Sándor, Gábor Pethő, Angelika Varga, Kata Bölcskei, Róbert Almási, Zsuzsanna Riedl, György Hajós, Gábor Czéh: Direct evidence for activation and desensitization of the capsaicin receptor by N-oleoildopamine on TRPV1-transfected cell, line in gene deleted mice and in the rat. *Neuroscience Letters* 361, 155-158 (2004)

Rudolf Gesztelyi, Judit Zsuga, Agnes Cseppento, Agnes Bajza, Angelika Varga, Judit Szabo, József Szentmiklosi: Special sensitization pattern in adenosine-induced myocardial responses after thyroxine-treatment. *J. Pharmacol. Sci.* 91, 295-304 (2003)
